ANYTIME EVERYWHERE

EUROPEAN
TIRES
2025

INTRODUCTION

Qingdao Landspider Tire Corp., Ltd is dedicated to enhancing the driving experience for every customer by crafting exceptional tires that prioritize comfort, safety, and performance. With over 12 years of rapid expansion, we have emerged as the leading tire supplier in China, achieving a total turnover of \$430 million in 2023 and aiming for \$500 million in 2024, with a global reach extending to more than 150 countries and regions.

With a deep understanding of the unique demands of European consumers, we specialize in developing cutting-edge products tailored specifically for this market segment. Our tires are meticulously designed and developed to address the diverse needs and preferences of European consumers, meeting stringent standards and requirements. Leveraging advanced Industry 4.0 production techniques, our state-of-the-art facilities guarantee superior performance and reliability in every tire we produce.

As a new entrant in the market, Landspider brand offers a diverse range of tire options to meet the evolving demands of consumers, ranging from compact to luxury vehicles. Our tires are engineered to deliver superior performance, including improved fuel economy, a quiet and comfortable ride, and extended longevity. We prioritize teamwork, innovation, safety, and market orientation, ensuring professional-grade products that can be customized to meet individual requirements.

Choose Landspider for premium-quality tires tailored to the European market, continuous innovation, industry-leading manufacturing processes, and exceptional after-sales service.

Experience the difference with Landspider - your trusted partner for all your tire needs at anytime,

WHY CHOOSE LANDSPIDER?

Build strong brand effects in other main markets

Since the establishment of the company, we insist on providing the products of high-quality for the market and the best service for customers. After several years of operation, Landspider has become one of the most professional tire suppliers in the other markets.

Constantly updated product line

In order to meet the changing market needs, Landspider updates and improves the product series on the basis of the market and customer feedback every year. Furthermore, we could customize exclusive products for customers.

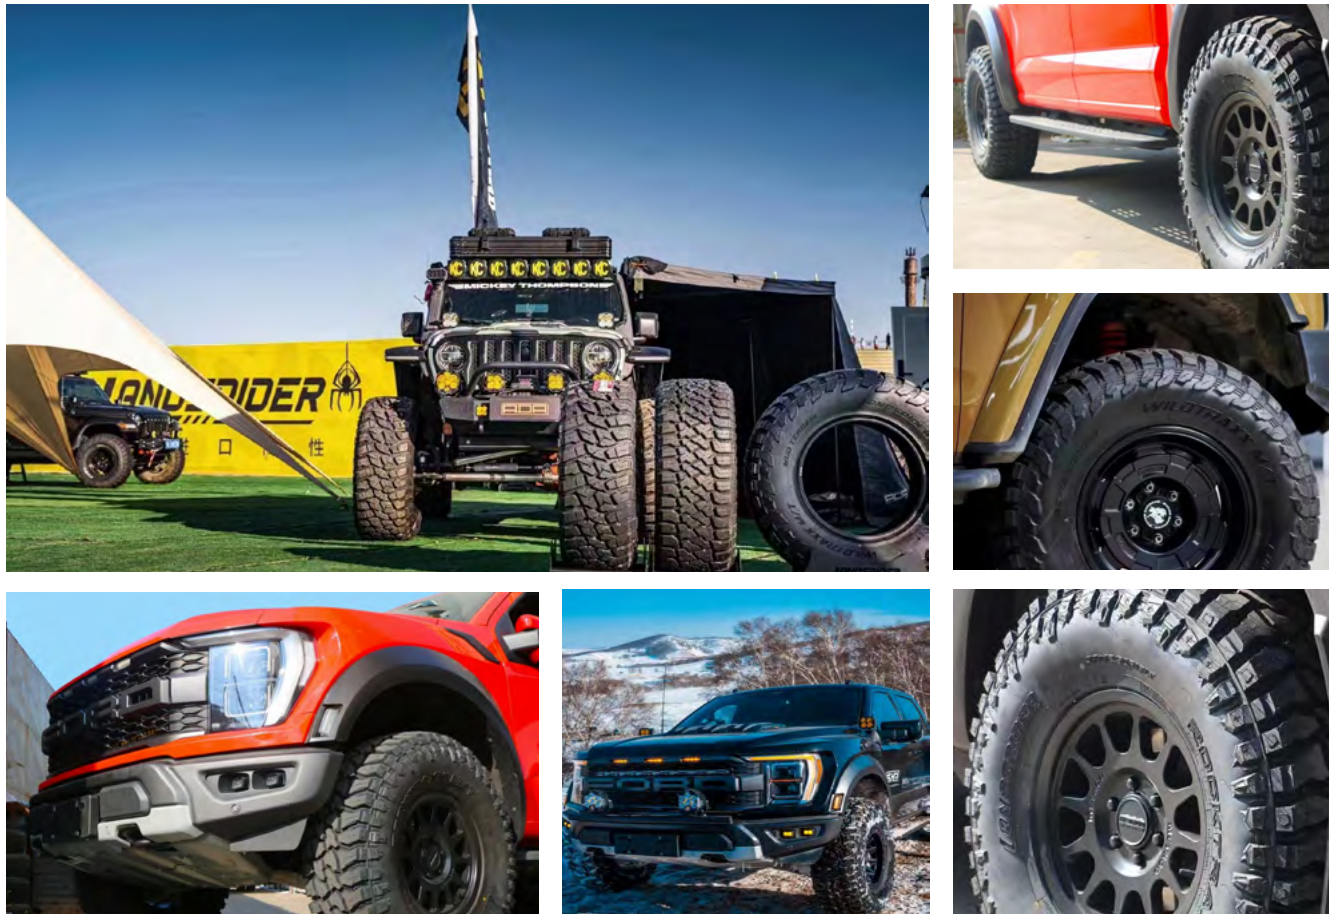

4.0 smart plant industry

Advanced industrial 4.0 production ensures high-quality products.

Excellent after-sales service

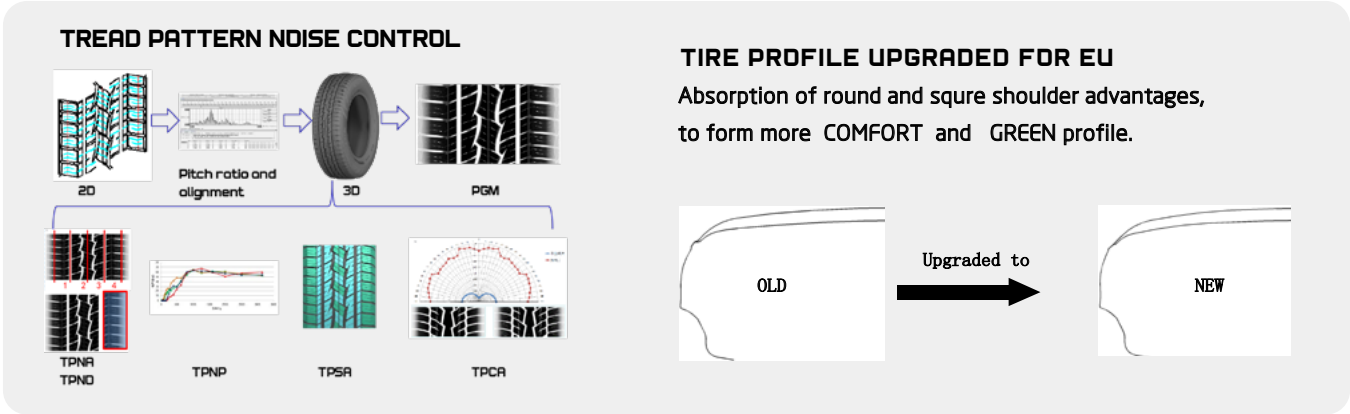

Qingdao Landspider Tire Corp., Ltd has strong after-sales team with professional technical personnel. We train and assess the after-sales team regularly to help customers solve the problems in a timely manner.

AVAILABE PRODUCTS FOR OTHER MARKETING.

EFFICIENCY	

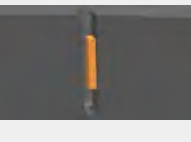

Non-symmetric from outside to inside for high-class performance. With close stiffness of two shoulders design, more freedom is allowed .

High performance compound and optimal block/void ratio ensures for great dry braking and handling.

The calculation of circumferential grooves for the series can efficiently avoid aquaplaning and delivering a strong brake performance.

Anti-closing design to improve road grip, especiall in wet conditions .

Internal structure engineering for superior safety throughout the life of the tire.

MILEAGE	

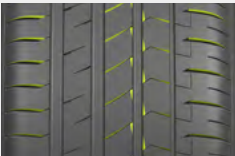

The adaptive tread design specially for sporty Ultra-High-Performance ensures even great stability and ride comfort on both wet and dry roads.

Stylish and strong shoulder design to form enough ground contact in the outsider area for crisp cornering.

Wide longitudinal grooves and shoulder lateral opening provide optimum drainage when driving straight ahead.

The whole 3-D edges design for smooth tread block entry in footprint to improve acoustic comfort.

Sporty tread compound and internal construction extend the dynamic performance to a wide range of service, specifically for high performance electric and plug-in vehicles.

DURABILITY	

Multi-sipe design provide good handling and braking performance.

Tread block design improves grip performance.

Zigzag main grooves increased tread rigidity, good prevention of irregular wear under high-load operation.

3D shoulder design provide good traction and braking performance on tough road conditions.

Complies with international standard tire conditions and has high snow performance, allowing direct driving even when restricted by tire chains in winter. The tires are engraved with the three-peak Mountain snowflake logo and M+S.

COMFORT	
DURABILITY	

The unique symmetrical tread pattern design provides smooth driving performance on highways and urban roads, improving ride comfort. The ultra wide grounding surface greatly enhances the driving range in harsh road conditions.

The anti abrasion layer design on the sidewall provides additional protection against many common dangers in harsh off-road conditions.

The irregular distribution of sipes and various pitch alignment significantly reduces tire noise.

The special silicon dioxide tread composite material not only greatly improves the performance of braking, turning, and handling. It also reduces rolling resistance, thereby improving fuel economy.

Straight 3-channel waterway
Resists hydroplaning for a safer drive in wet road conditions.

Wide shoulder blocks are applied for a better grip and maximum road contact. Groove width is optimized for all-season performance.

All Season Performance Compound
Features a new compound developed with highly concentrated silica to maximize grip performance in wet, dry, and light snow.

The product's construction with 3D sipes, provides outstanding grip performance on dry in all season conditions.

Dedicated, special designed studs for the middle tread and independent studs for shoulder areas, providing excellent longitudinal grip, the grip and handling performance on icy and snowy surfaces are strengthened greatly.

The wide lateral grooves provide more sharp edges that can improve the traction and grip on snow, shorten the braking distance with power.

Zig-zag 3D sipes improve performance on snow and ice surface with its maximized actual contact area under deflection and edge effect without losing block stiffness.

Specialized minigrooves on the surface to improve the roughness for safer grip on ice/snow road.

Special tread compound remains flexible at lower temperatures to make sure the grip on winter road conditions.
